

Are Your Payment Terminals Properly Protected?

... Or a target for security theft?

Mustang MicroSystems, Inc. offers a program to help ensure not only payment terminal security, but also extends their life span, and lowers the service costs.

When concerned with *Payment Terminal Management*, consider: **ONE STOP**

- A Maintenance Program that repairs and tracks all of your terminal assets.
- A Program that provides overnight replacement for failed terminals.
- A Program that stocks spare equipment, debit key injected and securely stored, for replacements or new stores.
- A Program with ONLY ONE monthly invoice.

• **Save \$Money** • **Reduce your RISKS** • **Minimize Repair Time!**

To learn more or to set up a ONE STOP trial period, contact our sales department.
